EMTEQ to Finalize STC for Several B767 System Upgrades

New Berlin, Wis., USA (September, 2013) –EMTEQ is now finalizing the STCs on a number of systems for the B767 including: ICG Iridium SATCOM, Rockwell Collins CMU-900 ACARS, and Honeywell HFR5-V SSCVR which can be used for FANS/CPDLC upgrades.

The ICG Iridium SATCOM STC will include an Iridium SATCOM Transceiver installation with new tray assembly and Iridium transceiver installation with CIM module, as well as an antenna installation in the upper fuselage. EMTEQ will address provisional wiring for future SELCAL annunciation and Audio Control Panel integration as well as replace existing audio select panels with Gables Audio Control Panels. This system will be integrated with ARINC 758 ACARS for AOC.

The Rockwell Collins CMU-900 ARINC 758 ACARS & CVR STC includes installation of new tray assemblies and Communications Management Unit equipment; VHF COMM transceiver, to Mode 2 VHF Data Radio (VDR), provision for DFDAU interface for ACMS-reporting capability; and an upgrade of the interface to Cockpit Voice Recorder (SSCVR) capable interface with ACARS for Datalink Recording functionality.

EMTEQ plans to provide these STCs with full STC certification and installation provisions including FAA/PMA 8130-3.
